**UN Climate Conference**

The 26th UN Climate Conference (or COP26 for short) begins today in Glasgow and will go on until Nov. 12<sup>th</sup>. We are already seeing signs of climate breakdown. Parts of the world are under threat because of rising sea levels due to global warming. Severe extreme weather events are causing devastation, destroying lives, homes, lands and livelihoods, especially in the poorest parts of the world which are most at risk.

Pope Francis, along with other religious leaders has called on those attending COP26 to renew their commitment to keep global temperatures below 1.5°C and to take action to make this possible. “We have inherited a garden: we must not leave a desert to our children,” the statement says.
